

This a-level is divided into two main parts:

- 1) Technical principals
- 2) Designing & making principals

UCAS points:

Maximum - 56 UCAS points available.

Personal skills: Students need to have a burning desire to change the world for the better. A want to understand why things are made they are and how they could be improved to further humankind.

The Offer: A Level Product Design enables you to combine an understanding of materials and manufacturing processes with your own creative visions by taking charge of the design process. You will develop analytical and evaluative skills alongside drawing and practical abilities, giving you the power to solve design problems.

What else do I need to know?

- ▶ We are currently investigating a department trip to the Design Museum and the Science Museum in London - You will be invited to go.

Do you want to change
the world?

The background features abstract, overlapping geometric shapes in various shades of blue, ranging from light sky blue to deep navy blue. The shapes are primarily triangles and polygons, creating a dynamic, layered effect on the right side of the frame, while the left side is mostly white.
